Research & Technology, DOT

- g. William H. Close - Chief of Environmental Research Division, Office of Noise Abatement, Office of Assistant Secretary for Research & Technology, DOT
- h. Henry G. Edler - National Aeronautics & Space Council, Executive Office of the President.

2. Believe the briefing went well, with many questions raised and answered during the discussion that followed. Mr. Lchan asked if General Maxwell of FAA or Boeing SST people had this briefing. We responded in the negative though pointing out that General Maxwell had received a program briefing a few years ago, and had been instructed on procedures to acquire information from either the OXCART or SR-71 programs.
